Test Drive the Health Science Curriculum Enhancements 6.0 with a Guided Tour and Practical Tips for Technology Infusion

Presenters: Rhonda Evatt and Katrina Haynes

The NCHSE Enhancements Version 6.0 is delivered entirely electronically. Enjoy a full resource tour discovering the most efficient ways to locate, extricate, and differentiate material for your own lessons. Bring your own device! *Not necessary to own a copy.* Presentations for every standard along with the detailed outlines, activities, and suggested resources to fully engage your students in face-to-face, virtual, or blended learning are included. Pull up materials for your substitute teacher with just a few clicks. Drag and drop files and group and lab activities are integrated. Enjoy hands-on activities and experience ways to quickly plan lessons and activities. New teachers will benefit from these materials and the assessment items ready for use. *Bonus: technology tutoring on beginner or advanced levels.* Practice making digital files yourself!

Medical Science 101: Fun and Practical Health Science Experiences

Presenters: Erika Ijames and Ellen Katzowitz

Who knew learning could be so fun? *Medical Science 101* is a hand-on, minds on health science experience using inexpensive, easily accessible materials. Teachers will use easily attainable materials to understand curriculum standards followed by subsequent hands-on activities. Become comfortable using creative ways to introduce more difficult standards like Standard 11: Information Technology in Healthcare. Award winning tips will be shared that encourage students' participation in the HOSA Competitive Events will be shared. Acquire fun and practical activities in first aid, vital signs, anatomy and physiology and infection control and strategies to prepare students for national and state examination requirements. Resources highlighting rubrics, tests and quizzes embedded in the *Medical Science 101 and 102* modules will be shared while delving into internet resources and case studies that enhance the joy of learning.

Pre-conference sessions formats include demonstration, lecture, make it/take it, networking.

Conference Goals and Virtual Option

Conference content is specifically designed to enhance health science curriculum delivery, build quality health science education programs, create meaningful student experiences, and meet the needs of educators. Attendees will hear from experts in the field, engaging partners, and outstanding classroom teachers.

The virtual conference will provide attendees the option to attend the live keynote speaker sessions on Wednesday and Friday mornings. Virtual attendees will also have access to the recorded keynote sessions and 12-15 selected workshops for thirty days, from November 5 to December 5.
