NCHSE Fall 2022 Newsletter

NCHSE, a long-standing non-profit organization, represents health science state leaders who are responsible for middle school, secondary, postsecondary and adult career technical education (CTE) health science programs. Established in 1991, NCHSE supports visionary leadership, promotes best practices and speaks with a common voice to enhance high-quality health science education programs and pathways that ensure career success for the next generation of health professionals. Through partnerships with state education agencies, publishers and educational resource providers, professional associations, certification providers and the Health Science Educators Association (HSEA), NCHSE is positioned as the **national authority for health science education**

National Health Science Standards Update

The HSEA President's Heartfelt Testimonial

I was honored to be a part of the NCHSE Standards Review Special Committee. As a classroom teacher, I believe it was essential for a classroom teacher to be represented in the standards review and serve as the teachers' voice. From the inside, I can tell you that MANY different health professionals participated in the review and offered suggestions. Each suggestion was thoughtfully considered, and most were applied to the refresh of the standards. I am proud to be a part of an organization that strives for excellence and commits to stay relevant in the ever-changing field of healthcare!

Toni McLemore, Durant High School (OK)

Wednesday Webinars

Building High-Quality Health Science Programs One Step at a Time

Embed the newly revised National Health Science Standards (NHSS) into your health science curriculum, building exciting and rigorous programs. Learn how to enhance your program using NCHSE health science resources and develop key strategies to engage health science advisory committees. The NHSS are the foundation for health science programs and can be used in writing curriculum, developing exciting classroom instruction, using assessment for effective program evaluation.

Presenter: Cindy LeCoq, NCHSE Staff

Date: Wednesday, September 14, 2022, 4:30 – 5:30 PM (ET)

Starla's Hand-On Body Systems: Seeing Eye to Eye & Cranial Nerves Made Easy!

Enjoy this fun lesson that allows you to participate and take back to use in your classroom! This Hands-On Body Systems lesson will give you a successful, musical, and fun approach to cranial nerves and helps students understand the structure of the eye. Pathology and careers related to vision will be incorporated into this lesson. Another affordable activity that makes hard content easy!

Presenter: Starla Ewan, National Health Science Presenter

Date: Wednesday, September 28, 2022, 4:30 – 5:30 PM (ET)

I'm a Health Science Instructor...Now What?

minimal preparation and background in teaching have you wondering if you will survive the semester.

I can help with that! This session is the beginning of an in-depth journey in helping you become the expert in your field again, and skilled at sharing that with students as well. There is an opportunity to purchase your own book to take your journey even further and to help you along the way.

Presenters:

Theresa Bloom (CO), Little Blossom Publishing & Consulting, longtime health science instructor
Elisabeth Winslow (TX), high school teacher and curriculum developer

Date: Wednesday, October 5, 2022, 4:30 – 5:30 PM (ET)

Bringing Virtual Patients to High School & CTE Programs

Today students love to use technology! Body Interact Virtual Patient Simulations help teachers bring active learning into the classroom! Join us to learn how to integrate Virtual Patients into your curriculum.

Our simulations allow students to act as healthcare professionals just as in real life! Even better, these simulations are aligned with the National Health Science Standards.

During this webinar, you will learn:

- How to teach with Virtual Patients inside and outside the classroom.
- The courses where you can implement Virtual Patients.
- How to use Virtual Patients to enhance soft & hard skills.

Presenters:

Dr. Kevin Ardon & Raquel Bidarra, Body Interact

Date: Wednesday, October 19, 2022, 4:30 – 5:30 PM (ET)
