PRE-CONFERENCE PROFESSIONAL DEVELOPMENT SESSION

Breakfast & Lunch included

9:00 A.M.– 4:00 P.M.

Our **2022 Pre-Conference Session** will focus on increasing interactivity to your health science classrooms and re-engaging with students who have been impacted by isolation and school closures associated with the pandemic. *It's a two for one this year!* Registration for the pre-conference includes both outstanding sessions; one in the morning and one in the afternoon!

Literacy Strategies for the Health Science Classroom

Presenter: Morgan Ely

When text overwhelms students, they may need a new way to read it. Learn about classroom-ready activities to keep them engaged! Literacy strategies are not just for the English classroom. These activities help students better understand the text and allow them opportunities to interact with material in a new way. Walk away from this 3-hour session with activities designed to help health science students overcome that overwhelming feeling when the text seems too hard to dissect!

Creative Strategies for Engaging Your Students

Presenter: Linda Wirt

During this 3-hour session, how to incorporate interactive teaching strategies for the health science classroom will be shared. Learn how to engage your students in grasping the technical information of your curriculum in a different and fun way using hands-on activities and project-based learning!
