NCHSE Winter 2022 Newsletter

The National Consortium for Health Science Education, a non-profit education organization, represents state education agency leaders responsible for middle school, secondary, and postsecondary career technical education (CTE) health science programs. Established in 1991, NCHSE supports visionary leadership, promotes best practices, and speaks with one voice to promote career success for the next generation of health professionals. Through partnerships with publishers and resource providers, professional associations, certification providers and the Health Science Educators Association (HSEA), NCHSE is positioned as the national authority for health science education.

2022 National Health Science Conference

October 25-28, NCHSE delivered a dynamic professional development conference that brought together educators and industry to share strategies for the classroom and ideas for engaging with students in health science pathways. **Charleston, South Carolina** provided the perfect venue for three and half days of motivating speakers, exciting exhibitors, and networking.

Several firsts occurred at this conference:

- 1) 445 attendees, the largest in history,
- 2) 45 exhibitors, the most in history,
- 3) an enthusiastic networking reception, and
- 4) fun excursions to experience the city.

What some attendees had to say:
