

## NCHSE – HSEA Wednesday Webinars Spring Semester 2024

*Webinars are recorded and archived at [healthscienceconsortium.org/webinars/](http://healthscienceconsortium.org/webinars/)  
Live attendees receive a certificate of participation for an hour of professional development.*

Date / Time	Title	Presenter(s)	Register
<b>January 17</b> <b>4:00 – 5:00 PM (ET)</b>	<b>Hot Topics in Health Science Education</b>	<b>HSEA Officers</b>	<a href="#">Register</a>
<b>Description</b>	<p>Are you starting new curriculum this semester? Do you need fresh ideas? Do you have great ideas to share? Do you have questions about classroom resources? Do you want to network? This webinar, hosted by the HSEA Officer team, is designed as breakout room discussions on 1) the implementation of a pacing guide, 2) a new approach to allied health through stackable certificates, 3) integrating academics into health science education, 4) utilizing the NCHSE Enhancements, and 5) implementing a work-based learning program.</p>	<p>Lissa Bartle, President  Melissa Sparks,  President-Elect  Kathy Slade, Secretary  Condra Ledford,  Membership  Coordinator  Karen Edwards, Past  President</p>	
<b>January 31</b> <b>4:00 – 5:00 PM (ET)</b>	<b>Mental Health First Aid Info Session</b>	<b>Elaine  Vandenburgh</b> NCHSE Member*	<a href="#">Register</a>
<b>Description</b>	<p>For many health science educators, mental health is a top priority in supporting students, colleagues, or themselves. Thankfully, the Mental Health First Aid movement is gaining traction across the country and around the world. As a result of this training, communities gain skills in recognizing signs and symptoms of mental health and substance use challenges, in offering and providing initial help, and in connecting someone to appropriate support.</p> <ul style="list-style-type: none"> <li>• Discuss the prevalence and impact of mental health and substance use challenges,</li> <li>• Explain the concept of person-first language and how it reduces stigma and promotes wellbeing recovery,</li> <li>• Practice non-judgmental listening, one of the steps outlined in Mental Health First Aid Training, and</li> <li>• Share how your organization can become a part of the Mental Health First Aid movement.</li> </ul>	<p>Minnesota State  Center of HealthForce  Excellence*  Healthcare Education  and Industry  Partnerships Director</p>

<b>February 7</b> 4:00 – 5:00 PM (ET)	<b>Pharmacy Technician Education: An Ideal Offering for Career and Technical Education</b>	<b>Aaron Emmel</b> NCHSE Member*	<a href="#">Register</a>
<b>Description</b>	The demand for pharmacy technicians has increased dramatically over the past several years. With this demand and the expanding scope of the role, the need for high value education is greater than ever. For the student, this education can help them quickly enter the healthcare space as a credentialed professional and prepare them for a lifelong journey in healthcare. This webinar will provide an update on the pharmacy technician landscape, demonstrate how this education aligns with CTE principles, and provide a blueprint on developing an effective curriculum that empowers students to enter the field.	Pharmacy Tech Scholar* Founder and Program Director	
<b>February 21</b> 4:00 – 5:00 PM (ET)	<b>Healthcare Simulations Best Practice Overview</b>	<b>Carrie Gigray</b> <b>Hannah Schroeder</b> NCHSE Member*	<a href="#">Register</a>
<b>Description</b>	Innovation with technology advancement in the last few decades has restructured health science education to integrate experiential learning. Simulation-based education (SBE) has become the standard of not only initial medical and health sciences education but continuing competencies for professional licensure and/or certification. Simulation is an opportunity for learners to discover and experience interpersonal risk taking in a safe and harm reductive space to empower critical thinking concepts. The goal of this webinar is to provide an overview of the Healthcare Simulation Standards of Best Practice™ to increase educator’s confidence to utilize simulation-based education in the classroom.	Transfr* Curriculum Development Specialists, Health Sciences

Live attendees receive a certificate of participation for an hour of professional development.*

<b>March 6</b> 4:00 – 5:00 PM (ET)	<b>Starting a New Patient Care Technician Pathway Program</b>	<b>Denise DuBois</b> <b>Molly Kellgren</b> NCHSE Member*	<a href="#">Register</a>
<b>Description</b>	Schools across the country are starting new patient care technician programs. During this webinar, we will walk you through key concepts needed in these courses and show you how you can align tools and curriculum to help jump-start your courses. We hope the information shared will help save you time as you do your planning. We'll share good sources for standards and skills to consider. Learn about the importance of industry-recognized certifications including a closer look into PCT certifications through American Medical Technologists (AMT). You'll also hear about engaging hands-on resources available to help students practice and apply PCT skills in your program. You'll leave with a plan for gathering information and planning a new patient care technician program.	Realityworks* Senior Product Manager and Health Science Product Manager	
<b>March 20</b> 4:00 – 5:00 PM (ET)	<b>Discovery Education and Connecting Health Sciences</b>	<b>Andrea Gardner</b> NCHSE Member*	<a href="#">Register</a>
<b>Description</b>	This session will provide exposure to Discovery Education's channels and ready-to-use activities connected to Virtual Field Trips that support health education. SOS Instructional Strategies and Channel resources will also be explored to transfer to practice. In addition, participants will be able to explore firsthand, health related careers and topics that are related to the real world and are relevant to 6-12 students.	Discovery Education* Statewide and Strategic Partnership Manager	
<b>April 10</b> 4:00 – 5:00 PM (ET)	<b>Clinical and Employability Skills</b>	<b>Linda Stanhope</b> <b>Kim Turnbull</b> NCHSE Member*	<a href="#">Register</a>
<b>Description</b>	Learn about a versatile collection of clinical tools in which health science instructors can use to prepare students for a successful clinical, rotation, or practicum experiences. Hear from the authors of the forthcoming, <i>Clinical and Employability Skills</i> , a brief overview of the health science foundations and tools for instructors and students to prepare for clinical practice. Take home examples for lab and scenario practice in your classroom.	Health Science Educators & Authors G-W Publisher*	
<b>April 24</b> 4:00 – 5:00 PM (ET)	<b>HSEA Celebration—Approaching the End of the School Year</b>	<b>HSEA Officers</b>	<a href="#">Register</a>
<b>Description</b>	How do you keep students busy at the end of the year? How do you celebrate student success? Reflect on the past year: take time to think about your accomplishments, challenges, and experiences from	Lissa Bartle, President Melissa Sparks, President-Elect Kathy Slade, Secretary
