

WEDNESDAY WEBINARS

FALL SEMESTER 2024

***Webinars are recorded and archived at healthscienceconsortium.org/webinars/
Live attendees receive a certificate of participation for an hour of professional development.***

Date / Time	Title	Presenter(s)	Register
September 11 4:00 – 5:00 PM (ET)	Tips for Teaching Birth Defects & Disorders Content	Denise DuBois Realityworks Senior Project Manager NCHSE Member	Register
Description	<p>Students in health careers need a solid foundational knowledge of human growth and development across the lifespan. Teaching about birth defects and disorders is an important piece of this knowledge. Ensuring students understand what common birth defects and disorders are and the implications they have as individuals age is key. You'll get ideas for engaging today's students in these difficult topics, including tools for creating "aha" moments that students will remember. Participants will leave with a plethora of links to free resources and information on these important topics. Recommendations for hands-on resources will also be shared.</p>		
September 25 4:00 – 5:00 PM (ET)	Color Thru Health Science	Jenny Yearby, Oak Grove High School, Jefferson Co. Schools (AL) Health Science Teacher HSEA Member	Register
Description	<p>Introducing Color thru Health Science- a collection of coloring review pages full of information about health science topics. Bundled together in a collection, Color thru PCT can also be used individually in any health science classroom.</p> <p>Currently 25 total topics: Scope of Practice, Patient's Rights, Med Terms, Infection Control, First Aid/CPR, Patient Safety, Basic Positions, Ambulating/Transferring Patients, ADLs, Vital Signs, Surgery, Specimens, Nutrition & Hydration, Skin/Wounds, ROM, Ostomy Care, Diabetes, Hospice/Post-Mortem Care, Phlebotomy, Order of Draw, EKG. Color thru PCT is a coloring resource used to help with preparing a student to take the National Certification Exam (CPCT). Used complementary with Patient Care Technician curriculum, full of tidbits of helpful info about all things PCT. Plenty of room to add more notes/doodles for review.</p>		

WEDNESDAY WEBINARS

FALL SEMESTER 2024

***Webinars are recorded and archived at healthscienceconsortium.org/webinars/
Live attendees receive a certificate of participation for an hour of professional development.***

October 9 4:00 – 5:00 PM (ET)	Enhancing Healthcare Career Readiness for High School Students through Stakeholder Collaboration	Chad Dall Bellin College (WI), Director of Outreach & Engagement	<u>Register</u>
Description	Join us for a comprehensive webinar to explore the innovative Bellin College Healthcare Academy model, designed to bridge the gap between high school, higher education, and healthcare careers. Discover how this program provides high school students with college credits, career-readiness training, job shadowing, internships, and scholarships, reducing education costs and preparing them for successful healthcare careers. Educators and counselors play a crucial role in guiding students toward fulfilling healthcare careers. Gain insights into building effective collaborations with higher education institutions and healthcare employers to support student success. Learn how to collaborate effectively with stakeholders to support student success and workforce development. Gain valuable insights into building a skilled healthcare workforce, facilitating seamless transitions to college, and providing hands-on learning experiences. Don't miss this opportunity to enhance career pathways in healthcare and foster a collaborative educational ecosystem.		
October 30 4:00 – 5:00 PM (ET)	Exploring Counseling & Mental Health Careers	Reno Palombit, CTE Director Johnston County Public School District Alyson McIntyre-Reiger Indiana FCCLA State Advisor G-W Publisher Authors NCHSE Member	<u>Register</u>
	National shortages for counseling professionals and mental health crises in schools have increased interest in adding courses introducing students to this subject matter. Strategies for providing students with career exploration and preparation in counseling and mental health services will be discussed. Use resources from G-W Publisher's new Counseling and Mental Health Services textbook.		

WEDNESDAY WEBINARS

FALL SEMESTER 2024

***Webinars are recorded and archived at healthscienceconsortium.org/webinars/
Live attendees receive a certificate of participation for an hour of professional development.***

<p>November 13 4:00 – 5:00 PM (ET)</p>	<p style="text-align: center;">Smiles in the Classroom: Hands-On Activities to Inspire Future Dentists</p>	<p style="text-align: center;">Curtis Burrill American Dental Education Association (ADEA) Senior Director of Recruitment & Outreach for Dental Education NCHSE Member</p>	<p style="text-align: center;">Register</p>
	<p>Join ADEA and Planet Smilez to explore hands on activities that educate and engage your students on the importance of oral health and dentistry as a profession. Attendees will learn more about the oral health student pathway and leave with access to five classroom ready activities including lesson plans and materials lists. You will be provided with resources to expand your current oral education or add it as a new experience for your students.</p>		
<p>December 4 4:00 – 5:00 PM (ET)</p>	<p style="text-align: center;">An Inside Look into a Successful IET (Integrated Education Training Program): Aztec Pharmacy Tech</p>	<p style="text-align: center;">Ashley Hammond University of Arkansas at Montecello Pharm Tech Faculty Mitch Rosin Aztec Chief Academic Officer NCHSE Member</p>	<p style="text-align: center;">Register</p>
	<p>Are you ready to set your program apart with an IET model that can double enrollment, increase overall gains, and bring distance learning to the forefront of your students' experience? We will showcase the steps needed to establish a successful healthcare IET program from marketing to course completion. Highlighting this top pharmacy tech program in Arkansas along with the secrets of marketing, MSG gains, and ways to streamline registration will be included. Participants walk away with a marketing campaign, a step-by-step guide on program implementation, and the confidence to bring healthcare jobs to the forefront of your community!</p>
